

Teachers of Újtikos

project by

The parents were invited to a great event to inform them about the tasks we had already accomplished from our project on the 10th of September in 2011.

We cooked and shared traditional hungarian foods and played together with the children outdoor

In the company of their parents and relatives.

We prepared local specialities.

For example the goulash soup we cooked in a big traditional cooking pot, called "bogrács".

The grandpa and his grandson put on their folk suit.

The children were playing joyfully while the parents were cooking..

We painted their faces.

They made necklaces and pictures of pasta and crops.

Great hands formed tasty
honeyed cookies called "mézespuszi".

The more little the more enthusiastic.

Mézespuszis had been decorated
by the children's own creative ideas.

Later on it has been baked.

Everyone had been served kindly
so they consumed it with love.

The prepared dishes:
Halpaprikás / Fish paprika

A local speciality:
Cserászka / Potato pasta

These cakes made by a pupil attends the 7th class and wants to be a confectioner.

It was such a lovely event we would like to organize in the following years.

We made a board with the pictures of the best Hungarian meals together with the 4th class's pupils.

Discussed the Hungarian eating habits,
and the preparation of a few dishes.

Pupils gladly listened the gastronomical presentation of Eve about...

...Rákóczi túrós and pleated potato...

...Stuffed cabbage and jelly...

We also mentioned delicious fish foods
for example the Fish soup of Baja.

Children decorated the board
with photos of tasty foods..

Pupils shared their family's eating habits too.

We showed them the very special
and traditional foods of Hungary.

This is the board we
made together for you.

The 4th class pupils acted as passengers and stewardesses speaking turkish on a plane.

They learnt a well known Romanian song.

We heard the following song in Portugal
so we taught them to sing it.

Best regards from Hungary

Many thanks for your attention!
