

We informed the parents about the achievements of the project and tasks ahead.

They were very interested in our work.

We spent together with them in the school an entire afternoon.

**They made some traditional
Hungarian dishes.**

The girls put on their aprons.

They laid the tables.

Even the boys learnt how to fold napkins.

The table got more and more beautiful.

The mothers helped us serving the fine dishes.

More and more excellent meal got to the table.

There were on the table some bean goulash, home-made sausage, delicious stuffed cabbage, and the children's favourite, pancake.

It was pleasant and unusual that we could have meal with our learners parents in the school.

Finally we had to do washing-up.
